## Immunology and New Concepts in Immunotherapy

June 13<sup>th</sup> & 14<sup>th</sup>, 2024  
School of Pharmacy - Nantes, France

Abstract submission - Deadline : April 15<sup>th</sup>, 2024

Early bird registration fee :  
90 € for Students ; 170 € for Researchers (before April 30<sup>th</sup>)

Registration fee :  
130 € for Students ; 220 € for Researchers (after May 1<sup>st</sup>)

[www.incit.fr/congres](http://www.incit.fr/congres)

Noon **Welcome lunch**

1:30 pm **Keynote - Dan Littman, MD/PhD** - New York University, New York, NY, USA  
Towards a logic for microbiota-directed immune system programming

### Session # 1 New targets & strategies for cell therapies

2:30 pm **Else Marit Inderberg, PhD** - Oslo University Hospital, Oslo, Norway  
TCR- and CAR-modified T cells for solid cancer treatment

3:00 pm **Selected short talk**

3:15 pm **Coffee break & poster session**

3:45 pm **Sebastian Amigorena, PhD** - Curie Institute, Paris, France  
Epigenetic control of anti-tumor immune responses

4:15 pm **Selected short talk**

4:30 pm **Catherine Rabu, Pharm D, PhD** - INCIT, Nantes, France  
Antigen identification for melanoma immunotherapy: peptides derived from long non-coding RNA

5:00 pm **Selected short talks**

5:30 pm **Sponsors' symposium**

7:00 pm **Open cocktail & speakers' dinner**

### Session # 2 Immuno-modulation / Immuno-inflammation

9:00 am **Gérard Eberl, PhD** - Pasteur Institute, Paris, France  
Regulation of hypothalamic functions by microbiota and the immune system

9:30 am **Selected short talk**

9:45 am **Julie Magarian Blander, PhD** - Weill Cornell Medicine - Cornell University, New York, NY, USA  
Harnessing Innate Immunity and Inflammasome Activation in Vaccines and Cancer Therapy

10:15 am **Coffee break & poster session**

10:45 am **Emmanuelle Godefroy, PhD** - INCIT, Nantes, France  
Human Microbiota-Reactive DP8 $\alpha$  Regulatory T Cells In Health and Gut-related Disorders

11:15 am **Selected short talks**

Noon **Lunch**

### Session # 3 Therapeutic targeting

1:30 pm **Ferry Ossendorp, PhD** - Leiden University, Leiden, The Netherlands  
Self-adjuvanted peptide cancer vaccines

2:00 pm **Najma Rachidi, PhD** - Pasteur Institute, Paris, France  
Exploring the roles of secreted Leishmania Casein Kinase 1 in macrophage subversion for the development of innovative therapeutic approaches against leishmaniasis

2:30 pm **Selected short talk**

2:45 pm **Coffee break & poster session**

3:15 pm **Selected short talk**

3:30 pm **Blandine Monel, PhD** - INCIT, Nantes, France -  
Novel approaches in CD8+ T cell-based immune therapies for HIV cure

4:00 pm **Sophie Lucas, MD-PhD** - De Duve Institute, UCL, Brussels, Belgium  
Harnessing the pleiotropy of TGF- $\beta$  cytokines to treat diseases associated with immune dysfunction

4:30 pm **End of the meeting**
